

three, the Grand Duke Alexis Nikolaevich, by a fortunate coincidence, happened at the same time as the battering down of the fortified wall which the enemy erected last winter from the Prinet River to the Romanian frontier.

"To-day, yielding to the vigorous and determined efforts during the last seven weeks by the gallant troops under Generals Gerbachev and Sakharoff, under the leadership of General Brusiloff, the villages of Gladki, Voroblevsk, Cebroff, Cerna and Pokropivna, all strongly fortified, fell into our hands. Further Koshoff (south-west of Tarnopol), well protected by the Burkanow forest, and the whole line of the River Strypa met the same fate.

"Thus the whole region of the main enemy winter positions before Tarnopol and Bucacz, pressed by us on both flanks, fell into our possession.

"The gallant troops under General Letchitzky captured Nadworna (south of Stanislaw) and the village of Fikow and then crossed the River Bystritsa at Solotvina."

BERLIN CLAIMS REPELSE OF ALL ALLIED ATTACKS

BERLIN, August 12 (via London).—Attacks by British and French forces at various points in the north and south of the Somme, in Northern France, have been repulsed by German counter-attacks and artillery fire, says the official statement given out by the War Office to-day. A French infantry attack against the Thiaumont work, Verdun region, was thrown back, with severe loss to the attackers; the statement adds.

The communication concerning operations in the western theater follows: "Strong British forces attacked between Thiaumont and the Bois de la Cote, and near Guillemont. North of Guillemont and near Buzieres they were repulsed by hand-to-hand fighting and by counterattacks. North of Bazentin-le-Petit and near Guillemont their attacks were repulsed by our artillery, machine-gun fire, and between Maucennes and the Somme a German force broke through the French line and penetrated into a small wood northeast of Ham. South of the Somme a partial enemy attack near Barleux met with no success.

"On the right bank of the Meuse (Verdun front) during the night of the 10th, hand-to-hand attacks north and west of the Thiaumont work, and also a strong infantry attack against the Thiaumont work itself were repulsed with severe French losses. South of Ligny (Lorraine) a German patrol attack was repulsed, and some prisoners were taken.

THIRD GERMAN POSITION CAPTURED BY FRENCH

PARIS, August 12.—North of the Somme the French attacked the third German line from Hardecourt to the river at Buscourt, a distance of six and one-half kilometers (three and three-quarter miles), taking all the trenches to a depth of three kilometers (two-thirds of a mile), according to the official statement issued by the War Office to-day.

The French have penetrated the village of Maurepas, and have taken 1,000 prisoners and thirty machine guns. The text reads:

"North of the Somme, after preparatory shelling yesterday and last night, our troops today attacked the third German position, extending from east of Hardecourt to the Somme, opposite Buscourt. On this front of six and one-half kilometers our infantry, with machine-gun dash, captured all the trenches and strongly fortified positions to a depth of 600 to 1,000 meters. We penetrated the village of Maurepas, of which the northern part and the eastern part are now in our possession. We cut our new lines on the southern slopes of hill 109, along the road from Maurepas to Clercy and onto the saddle west of Clercy.

"The number of unwounded prisoners taken by us and counted up to the present is 1,000, while thirty machine guns were captured.

"A German counterattack between Clercy and Maurepas failed under our fire.

"South of the Somme we carried out numerous destructive bombardments of the enemy organizations in the region of Lenscourt.

"On the Verdun front there was an intense artillery duel in the region of Fleury and Vaux-sous-Chievre.

"The day was comparatively quiet on the rest of the front."

Trevino, in the hope of identifying the plot, was denounced, and it was stated that the prisoners now held will be tried by court-martial and if found guilty will be executed.

Mr. Trinkle, nominee of to-day's convention, is comparatively a young man. He possesses wonderful mental and physical vigor, and is a convincing talker. He represented Wythe County in the recent session of the State Legislature.

PROTESTS SUPPORTED

American Shippers Aided by Government in Complaint Against Great Britain.

LONDON, August 12.—Complaints of American shippers over the detention of consignments to the Netherlands Overseas Trust are being supported and pressed by the American government. American claimants will decline to be bound by a clause in the British government's agreement with the trust, by which Great Britain reserves the right to detain any consignment until reasonable doubt of its destination has been satisfied.

The shippers take this attitude on the ground that they are not contractual parties to such an agreement. The Foreign Office, on the promise of the trust, that American consignments to the trust would be regarded as proof that the goods were destined for consumption in Holland. This contention has not yet been directly met by the British government, which, replying to recent protests, stated that steps would be taken to correct any injustice shippers may have met as a result of detentions, after the investigation of individual complaints.

REORGANIZE SHIP COMPANY

Security Holders of International Mercantile Marine Agree on Plan of Readjustment.

NEW YORK, August 12.—Committees representing the holders of bonds and stocks of the International Mercantile Marine Company finally have agreed to a plan of financial readjustment of that company, which was distributed to-day. It provides for a continuance of the existing company, for the refunding of about half of the company's bonded indebtedness and the payment of the balance in cash. The 32 per cent of back dividends due on the preferred stock is left to be dealt with by the new board of directors. New bonds to be issued in part exchange for old bonds will be authorized to the amount of \$50,000,000, but only \$10,000,000 of these will be required for refunding purposes, and the balance of \$40,000,000 will be retained in the treasury of the company for the purchase of new ships for its fleet. The board of directors is to be increased from fourteen to seventeen members.

CALOMEL TODAY, SICK TOMORROW

Dose of nasty calomel makes you sick and you lose a day's work.

Calomel salivates! It's mercury. Calomel acts like dynamite on a sluggish liver. When calomel comes into contact with your bile it causes cramping and nausea.

If you feel bilious, headachy, constipated and all knocked out, just go to your druggist and get a 50-cent bottle of Dodson's Liver Tonic, which is a harmless vegetable substitute for dangerous calomel. Take a spoonful and if it doesn't start your liver and straighten you up better and quicker than nasty calomel and without making you sick, you just go back and get your money.

If you take calomel to-day you'll be sick and nauseated to-morrow; besides, it may salivate you, while if you take Dodson's Liver Tonic you will wake up feeling great, full of ambition and ready for work or play. It's harmless, pleasant and safe to give to children; they like it.—Advertisement.
